SCHOOLTOOL

#1 MARKET SHARE
for Student Management Systems (SMS) in New York State

PAINLESS TRANSITION

"I had been through a migration process before where I was only tangentially involved, and it wasn't pleasant. What we went through migrating from our legacy student management system to SchoolTool was a completely different experience. We had very little we had to do. We just had to document the changes we were making until the data conversion was done. It was very hands off for us." *- Director of IT*

12 RICs
Present within all 12 Regional Information Centers across New York State.

BASED IN NEW YORK

"It is a huge benefit to have Mindex located in New York State and focused on state requirements. I wanted to have confidence that the company I was bringing in was going to be there when we needed them. They are available and accessible, and open to feedback." *- Principal*

~400 DISTRICTS
ranging from
8 - 22,000 STUDENTS

28
BOCES
View and transfer information between BOCES and home districts.

TRENDING SUCCESS

"I would go to meetings and everyone in our BOCES and RIC— except for us—were on SchoolTool. It used to get so frustrating because I didn't like the product we were on, the support we received wasn't great, and I was very unhappy. We finally switched to SchoolTool. We love it, our teachers love it, and we haven't looked back since."
- Superintendent

CUSTOMER FOCUSED

"On a professional level, there is nothing more satisfying than reading the latest release notes and seeing something pop-up that I was involved with in some way. It is such a wonderful feeling to know I helped contribute to making something better. I've dealt with a lot of companies that say they are customer-centric but once you begin doing business with them, that goes away. I haven't found that with Mindex." *- IT Director*

CLOUD HOSTED

"Not only did the SchoolTool team stand up our operations quickly, but they also provided in-depth training to our staff and ensured we were prepared for day one. Cloud hosting also provided us with a significant cost-savings and the peace of mind that our data would be secure and easily accessible." *- Board Member*

DID YOU KNOW?

90%
of all NYS SMS transitions over the last 10 years chose SchoolTool

ROBUST SECURITY

"Everybody wants security to be someone else's problem. Keeping your most important asset— the information— safe and secure is important because parents are trusting us with it. With SchoolTool having the amount of student data that it does, it's nice to know that Mindex is taking responsibility and isn't putting security of that data all on the end user. Every program has potential to be an exposure point, and I appreciate the fact that Mindex has put extra layers there. We have left vendors in the past that have been very casual with our data, to the point of being negligent." *- Director of Learning and Technology*
